

Sell a Sailing boat with MarineSellers.com

This guide and check list is designed to help you prepare a maximum amount of information and photos to create a professional web page to advertise a boat. It is important to remember that more detail displayed on the boat's web page will attract more attention to the boat.

1. Set your digital camera to take photos from a minimum 800kb to maximum 1.5mb per photo.
(We recommend you do this and take some test photos before leaving for your boat).
2. Go to your boat with your camera and this guide.
3. Make sure the boat is clean and tidy with all personal and superfluous items out of sight.
4. List the boats complete specification and details on this information sheet. When listing your boats details ensure that all technical details are accurate and include all the boats equipment.
5. Take photos of the boat, use the photo check list to help ensure a full set of photos. You may display up to 100 Photos.

The main photo of the boat should show the whole boat and this will be the main photo for your web page.

Please note when taking the photos ensure the subject fills the photo.
Once you have taken the photos check they are not blurred or otherwise not clear.

6. Log on to MarineSellers.com, upload the boat photos and details. When listing the boats details please ensure that all technical details are complete and accurate.
7. Regularly check your email for enquires.

VERY IMPORTANT! Please make sure the boats MAKE AND MODEL are spelt correctly. Failure to do so will result in the boat's web page being hard to find on the web.

Sailing Boat Specification and Equipment Check List

1 of 4

1 Boat Details		Holding Tank Capacity Ltrs	
Boat Type		Range N.Miles	
Boat Name		Max Speed Knots
